

FY 2009-10 Strategic Priority
(As recommended by University Planning and Quality Council
and approved by the Cabinet)
June 2009

Enrich the intellectual climate and the student experience.

Effort A: Improve student-faculty/staff interaction and rigor in academic experiences.

Effort B: Enhance the inclusiveness, civility, respect, integrity and safety of the university community.

Process: The university's divisions will use the budget process to propose tactics to accomplish these efforts. The proposed tactics will include costs, timelines, expected outcomes, and success measures. The Cabinet will approve a subset of the proposed tactics, which will then be incorporated into a final strategic priority document.
